Introduction

This booklet contains the specimen examination paper for the 2001 Higher School Certificate examination in Italian Extension. A mapping grid is also included, showing how each question in the examination relates to the syllabus outcomes and content, and to the performance bands.

The specimen paper shows the format of the New HSC examination. It has been printed on A4 paper and side-stapled to make it convenient for use in schools. Actual examination papers will be produced as A4 booklets. All New HSC papers will be printed on white paper.

The 2001 HSC specimen papers have been produced in accordance with the Board’s Principles for Setting HSC Examinations in a Standards-Referenced Framework, published in Board Bulletin Volume 8 Number 9 (Nov/Dec 99). Questions are closely related to the outcomes of the course, and the paper as a whole is structured to allow for appropriate differentiation of student performance at all levels on the performance scale.

The papers have been designed so that students have a clear understanding of what they are required to do in each question and in working through the paper. Instructions have been standardised, and the demands of the questions have been made explicit. Key words in questions, such as ‘discuss’, ‘analyse’, and ‘explain’, have been used consistently in accordance with the glossary published in the Board’s Assessment Support Document.

This specimen paper is an example of the type of examination that could be prepared within the examination specifications in the Italian Extension syllabus. Examinations will be based on the syllabus, and will test a representative sample of syllabus outcomes. Therefore, the range and balance of outcomes tested in HSC examinations in 2001 and subsequent years may differ from those addressed in the specimen paper.

The mapping grid is an important feature of the development of the examination. It aids in ensuring that the examination as a whole samples a range of content and outcomes, and allows all students the opportunity to demonstrate their level of achievement. Where courses have components in the examination other than written papers, the grid indicates the wider range of outcomes that are assessed by including these other components.

There are a number of points to note in considering the Italian Extension specimen paper:

- A rubric indicating general criteria for judging performance has been placed at the beginning of each section or part of the paper to clearly indicate the factors that will be used to assess responses to the question(s).
- The number and type of questions in Section I, Part A may vary each year within the range determined by the syllabus.
- The prescribed texts and issues for the specimen paper are those prescribed for the 2001 HSC examination.
## Italian Extension

**HSC Specimen Examination Mapping Grid**

For each item in the examination, the grid shows the marks allocated, the syllabus content and syllabus outcomes it relates to, and the bands on the performance scale it is targeting. The range of bands shown indicates the performance candidates may be able to demonstrate in their responses. That is, if an item is shown as targeting Bands E2 – E3, it indicates that candidates who demonstrate performance equivalent to the Band E2 descriptions should be able to score some marks on the item, while those who perform at Band E3 or above could reasonably be expected to gain high marks. In the case of one-mark items, candidates who demonstrate performance at or above the bands shown generally could be expected to answer the item correctly.

Sample marking guidelines for Italian Extension

The following marking guidelines have been developed for selected questions from the 2001 HSC Specimen Examination in Italian Extension. These guidelines indicate the approach that would be taken to marking questions.

For each question, the following are typically included:

1. The syllabus outcomes that are targeted by the question.
2. The assessment rubric from the specimen paper, where there is one, listing the set of general criteria that are used to assess responses.
3. The marking guidelines, which show the criteria to be applied to responses along with the marks to be awarded in line with the quality of the responses. For extended-response questions, performance is described at a number of levels of performance, each covering a range of marks.
4. A sample answer or some points that answers might include. Sample answers indicate the scope and depth of treatment expected, and are not intended to be prescriptive. Similarly, the points that could be included in answers are not intended to be an exhaustive list, but rather an indication of the considerations that students could include in their responses.

Marking guidelines will generally require some refinement at the Marking Centre to take account of unanticipated responses that students present. For essay-type questions, the standard described at each mark range will be made clear during pilot-marking by the selection of sample scripts.

In a standards-referenced framework, examination questions are closely linked to syllabus content and outcomes. Expectations of the question are to be clear in the wording of the question. Marking guidelines will be developed at the same time as the examination questions, by examination committees. The development of marking guidelines will be guided by the Board’s Principles for Developing Marking Guidelines in a Standards-Referenced Framework, published in Board Bulletin Volume 9 Number 3 (May 2000).

Question 1 (15 marks)

In your answers you will be assessed on how well you:
- respond critically to the prescribed text
- analyse how meaning is conveyed
- demonstrate an understanding of the relationship between the prescribed text and prescribed issues

Read the extract from the film *Jack Frusciante è uscito dal gruppo* and answer the questions that follow in ENGLISH in the spaces provided.

*Refer to the text on pages 2 – 4 of the Specimen Paper.*

(a) Comment on the way in which the bicycle journey at the beginning of the extract is used as a metaphor.

Answers could include:
- The bicycle journey is a metaphor for the relationship between Aidi and Alex
- Initially through the familiar territory of Bologna, Alex is at ease and confident and the ride is smooth, fast, easy. This represents Alex’s enthusiasm/zest for life/sense of exhilaration/energy
- This is contrasted with the uphill journey to Aidi’s home which is laboured/difficult/more of a challenge/pace slows down
- The metaphor also includes the journey from adolescence to adulthood, or self-discovery to disillusionment. The fact that Alex is the only student who still rides a bike might indicate he is yet to begin this journey

Padre: Comunque, volevo dirti che se vuoi far vedere le carte geografiche hai … di là … insomma, va bene. Solo che quello che volevo dirti è …
