Changes from current examination specifications

In Section I, objective response questions have been introduced to the value of from 5 to 10 marks.

In Sections II, III and IV, the expected length for the responses is included as a guide. It is presented as the approximate number of examination writing booklet pages (based on

average-sized handwriting), and/or an approximate number of words. Students will not be penalised for responses of excess length: they may write less than or more than what is expected, and their responses will be marked on their merits.
