# Evidence Guide

The evidence guide identifies critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statement.

<table>
<thead>
<tr>
<th>Critical aspects of evidence</th>
<th>Underpinning knowledge</th>
</tr>
</thead>
<tbody>
<tr>
<td>It is essential that competence is fully observed and there is ability to transfer competence to changing circumstances and to respond to unusual situations in the critical aspects of:</td>
<td>• General knowledge of enterprise forms, documents and stationery.</td>
</tr>
<tr>
<td>• writing short routine texts using correct spelling, punctuation and grammar</td>
<td>• Operational knowledge of enterprise policies and procedures in regard to:</td>
</tr>
<tr>
<td>• reading, interpreting and applying routine texts in the workplace</td>
<td>- workplace document style, format and layout</td>
</tr>
<tr>
<td>• interpreting and conveying workplace information</td>
<td>- workplace communication procedures</td>
</tr>
<tr>
<td>• maintaining workplace communications, including documents</td>
<td>- workplace documents</td>
</tr>
<tr>
<td>• applying keyboard skills to prepare and/or edit simple documents using a computer</td>
<td>- telephone protocols and operating procedures</td>
</tr>
<tr>
<td>• applying enterprise requirements for document style and format</td>
<td>- computer system operating procedures.</td>
</tr>
<tr>
<td>• applying enterprise requirements for electronic storage and retrieval of documents</td>
<td>• Basic operational knowledge of legislation or regulations in relation to OH&amp;S, particularly for use of screen-based equipment and ergonomic computer workstations.</td>
</tr>
<tr>
<td>• applying enterprise procedures for incoming and outgoing telephone calls.</td>
<td></td>
</tr>
</tbody>
</table>

## Key Terms and Concepts

• communication process/cycle
• communication methods and equipment
• computer system operating procedures
• computer work stations
• cooperative working environments
• document inventories
• document style and format
• document maintenance and storage
• editing and proofreading
• effective communication
• electronic communication
• electronic storage and retrieval
• ergonomic solutions
• feedback
• files and directories/folders
• incoming and outgoing telephone calls
• industry terminology/technical jargon
• input devices
• keyboard skills
• lines of reporting and communication
• personal computer
• printing/print queue
• questioning techniques
• reading and interpreting texts
• routine texts
• software packages
### Evidence Guide cont/d

<table>
<thead>
<tr>
<th>Context of assessment</th>
<th>Method of assessment</th>
<th>Specific resource requirements for this unit</th>
</tr>
</thead>
</table>
| This unit *may* be assessed in conjunction with other units that form part of the job role or function. Elements of competence contain both knowledge and practical components. Knowledge components *may* be assessed off the job. Practical components *should* be assessed on the job or in a simulated work environment. Evidence is best gathered using the products, processes and procedures of the workplace as the means by which the candidate achieves industry competencies. | It is *preferable* that assessment reflects a process rather than an event and occurs over a period of time to cover the varying circumstances. Evidence of performance *may* be provided by customers, team leaders/ members or other appropriate persons, subject to agreed authentication arrangements. | The following *should be* made available:  
- a workplace or simulated workplace  
- documentation, such as enterprise or sample policies and procedures manuals related to workplace document style, format and layout, workplace communication procedures, workplace documents, telephone protocols and operating procedures, computer system operating procedures  
- enterprise or sample stationery, documents and forms  
- access to enterprise or similar computer hardware and software  
- access to enterprise or similar telephone system. |

### HSC Requirements and Advice cont/d

**Key Terms and Concepts**
- sources of information  
- sources of work instructions  
- telephone system/equipment  
- telephone protocols/etiquette  
- verbal, non-verbal and written communication  
- workplace documentation.
Specific key competencies, underpinning and employability skills required to achieve the performance criteria

These include a number of processes learned throughout work and life, which are required in most jobs. Some of these are covered by the national key competencies, although others may be added. The details below highlight how these competencies are applied in the attainment of this unit.

Application of the key competencies in this unit are to satisfy the nominated level in which:

Level 1 – relates to working effectively within set conditions and processes;
Level 2 – relates to management or facilitation of conditions or processes; and
Level 3 – relates to design, development and evaluation of conditions or process.

How will the candidate apply the following key competency in this unit? The candidate will need to:

<table>
<thead>
<tr>
<th>Competency</th>
<th>Application</th>
<th>Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>Collect, analyse and organise information</td>
<td>Collect, organise and understand information related to input/transfer information into a computer and interpreting workplace information.</td>
<td>Level 1</td>
</tr>
<tr>
<td>Communicate ideas and information</td>
<td>Communicate ideas and information utilising plain English literacy and communication skills in relation to writing, reading and understanding workplace documents including basic oral communication skills in relation to conveying and receiving workplace information.</td>
<td>Level 1</td>
</tr>
<tr>
<td>Plan and organise activities</td>
<td>Plan and organise activities to take or leave a telephone message.</td>
<td>Level 1</td>
</tr>
<tr>
<td>Work with others and in a team</td>
<td>Work with others and in a team by distributing information to team members.</td>
<td>Level 1</td>
</tr>
<tr>
<td>Use mathematical ideas and techniques</td>
<td>Use mathematical ideas and techniques to ensure version control of files and documents is followed.</td>
<td>Level 1</td>
</tr>
<tr>
<td>Solve problems</td>
<td>Establish diagnostic processes to recognise and clarify information.</td>
<td>Level 1</td>
</tr>
<tr>
<td>Use technology</td>
<td>Use workplace technology related to basic computer keyboard skills in relation to opening, editing, closing and printing basic text documents, and basic technical skills in the operation of computer hardware and telephone equipment.</td>
<td>Level 1</td>
</tr>
</tbody>
</table>

Please note: BSBCMN103A Apply basic communication skills is an elective unit of competency for Certificate I in Automotive. The underpinning knowledge and skills from this unit have been incorporated into the following HSC Requirements and Advice.
<table>
<thead>
<tr>
<th>Element</th>
<th>Performance Criteria</th>
<th>Range Statement</th>
<th>HSC Requirements and Advice</th>
</tr>
</thead>
</table>
| 1 Write routine texts | 1.1 Routine texts of one or more sentences are composed in accordance with workplace requirements. | The Range Statement provides advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. The following variables may be present for this particular unit: **Unit Scope** • enterprise may vary in size, type and location, the range of work activities conducted, hours of operation and the number and type of staff. **Information** • enterprise policies and procedures relating to workplace forms and documents, computer operating procedures, telephone use and system operating procedures. | **Learning experiences for the HSC must address:** *NB* This unit of competency requires students to develop a general knowledge of a range of forms, documents and stationery used by at least one workplace/organisation. Ideally, this could be undertaken during work placement with students reporting their findings and experience to the class on their return. This will ensure students are made aware of a range of automotive environments and the differences in practices between workplaces/organisation. An awareness of the purpose of a range of texts likely to be encountered in an automotive industry environment including: • sources for work instructions and procedures - work schedules - job card/sheet/plans/specifications - standard operating procedures - Material Safety Data Sheets (MSDS) - regulations/legislation - manufacturer/workplace guidelines, policies and procedures - Australian Standards - meeting notes/minutes - manuals - dictionaries • workplace documentation - job cards - invoices - stock/inventory/price lists - parts order forms - quotes - contracts - operational forms - memos/messages - customer bookings - rosters - timesheets - personnel records - accident reports

**Learning experiences for the HSC must address:**

- Editing and proofreading skills including:
  - sources for checking spelling and grammar
  - use of electronic spelling and grammar tools.
- Understanding lines of reporting and communication with supervisor/team leader and others in the workplace.
- Awareness of appropriate/relevant people including:
  - supervisor/team leader
  - mentor
  - trainer
  - colleagues.

**Learning experiences for the HSC must address:**

- Identification and selection of appropriate text(s) required to support/complete a range of tasks appropriate to the job.
- A range of opportunities to read, interpret and follow work instructions/information for a range of work tasks of varying degrees of difficulty.
- Extracting information from a range of relevant sources.

| 3.4     | Documents are kept and maintained in accordance with workplace/enterprise procedures and Government legislation. |  | Learning experiences for the HSC must address:  
The importance of recording information that is:  
• clear  
• legible  
• accurate  
• concise  
• appropriate in terms of industry terminology.  
A broad understanding of the importance of and standard procedures for:  
• document maintenance and storage  
  - appropriate storage/filing of hard copies of computer-generated documents  
  • maintaining document inventories. |
| 4 Apply basic computer skills | 4.1 Computer is turned on according to manufacturer/component supplier specifications or workplace procedures. |  | Learning experiences for the HSC must address:  
Operating a personal computer:  
• start up and shut down  
• access system  
• log-on procedures  
• correctly identifying and opening files  
• locating data  
• saving and closing files  
• storing data  
• legal and organisation policy/guidelines and requirements. |
|         | 4.2 Software is loaded or selected from menu. |  | Learning experiences for the HSC must address:  
A working knowledge of a range of application software packages including:  
• email and internet  
• word processing  
• spreadsheet  
• database. |
|         | 4.3 File is identified and selected or new file is produced. |  | Learning experiences for the HSC must address:  
Working with files including how to:  
• search for files using system browser |
