6.1 Teaching and Learning Materials

It is the responsibility of the Registered Training Organisation (RTO) to determine the teaching and learning materials that will be used to support the delivery of Metal and Engineering courses within the Metal and Engineering Curriculum Framework.

Advice on curriculum materials which may be used to support the delivery of courses within the Metal and Engineering Curriculum Framework is contained within the *Metal and Engineering Curriculum Framework Stage 6 Resource List* (www.boardofstudies.nsw.edu.au). This information is provided as a guide to RTOs and teachers delivering HSC courses within the curriculum framework. The use of the listed training materials is not mandatory.
