2012 HSC - Aboriginal Studies

Band 1/2

Sample 3 Question 13(a)

Question 13 - Education (a)

The current educational outcomes of Aboriginal people is lower than average over the past couple of years because of low attendance of Aboriginal people to schooling around Australia.

Over the last couple of years Aboriginal students attendance rating has been dropping reasons of these low attendance rate can come back to their home life and if that's a reason that affects their attendance.

From Primary School Aboriginal students attendance is abit higher than average but when it come to Secondary and high school it begins to drop some of the reasons are home life, Getting girls pregnant, drugs and alcohol addictions and because they are older and feels more ~~from~~ freedom from parents. And easier access to drugs and alcohol.

And if the school soon start to have better understandings of this the easier it because to help Aboriginal kid get to school get a good education to help further them in life.

Question 13 - Education (b)

The reason why some strategies have been more successful than others is because some really took time and understanding of each problem the affecting their education.

Australian Indigenous education and International Indigenous communities has put schools in more remote towns and more funding which helps alot of Indigenous kids to further their educational needs.
