

Question 19 (12 marks)

- (a) Why is it essential to tag electrical equipment? workers to 2

Tagging electrical equipment will allow people to view who has been using the equipment and how much has been used. This will allow workers to purchase new equipment if running low

- (b) Analyse the human and organisational costs faced by a business as a result of workplace injuries. 6

For the cost for a business may be hefty as if the workplace injury was caused due to because poor OHS was applied by the business, the business may be fined as they did not take care of the workers. Depending on the situation whether the injury was great or small the fine cost of the fine will be accorded to that and the worker that had injuries will be compensating by workcover. That is why it is important for businesses to regularly carry out inspections to prevent any of these incidents from happening.

Question 19 continues on page 12

- (c) Write a memorandum to be distributed to all staff informing them of the purpose and content of Material Safety Data Sheets (MSDS). **4**

M E M O R A N D U M

To: All staff

Date: 27-10-10

Re: Material Safety Data Sheet

From: Human Resources Department

It is important that all staff within the company are informed and up-to-date with the content of the material safety Data sheet (MSDS). MSDS is to safely protect the data sheet

I can not stress how important it is that all staff must read and be aware of this.

Regards

Human Resources Department.
