

### Text 1 - (a) Short story extract

In text 1 the dialogue tries to capture the young couple's reaction by how it has been structured and written; especially the conversation that the two couple had when they found the items. They described it as "trunks" when the man saw the items and his girlfriend didn't want him to touch the "trunks" and "junk he found."

### Text 2 - (b) Image

The painting of Albertus Seba by Jacob Houbraken in the year 1730 represents Albertus as being an individual who values and cherish the objects and items he has found, the image also shows that Albertus loves to collect these objects and items as seen in the painting, he also points at the layed out tabel that has a green cloth / tabel cover with an open book that is full of pictures and images of insects and animals that is a spider, butterfly, bug, bird, monkey, lizard and what seems to look like a fox; but on the table in front of the open book there is many colourful and different shaped sea shells while holding in his has a long jar that has a black snake.

### Text 3 - (c) Poem

The poem Butterfly by Margaret Atwood conveys the father to his personal discoveries and response by how he describes the way ~~he was~~ he was ninety years ago at the age of "10" ten years old, his discovery was the blue eyed butterfly he found on the day he ~~he~~ saw a derched log floating heavily down stream.

### Text 4 - (d) ~~is~~ Nonfiction extract.

The text portrays the ~~diff~~ difficulties of the non-fiction text by discovering what is false and what is ~~is~~ true. by the writer Hilary McPhee.

### Text 1, 2, 3, and 4 - (e)

The two text's that I would compare that will represent significance of curiosity will be Text 1 - Short story extract and Text 2 - Image. I've chosen these two text's because they do really represent the curiosity and the discoveries found in the short story extract and in the painting of Albertus Seba by ~~the~~ Jacob Houbr.
