Implementation/planning comments: Identified students interviewed/counselled by school/TAFE panel then offered opportunity to undertake course. Students and their parents required to attend information session on requirements and expectations and orientation at TAFE. Develop a plan to manage logistics including transport, timetabling issues with students going to TAFE and management of students catching up on missed classes.	Implementation/planning comments: Majority of students to continue in course, some students may elect to drop Animal Care.	Implementation/planning comments: There are no additional courses endorsed in this industry area. Students planned pathways will be discussed to identify courses that might meet their needs. Possible courses may include Primary Industries or the school may need to explore the development of a new Board Endorsed Course working towards a suitable qualification such as one of the Certificate III qualifications from the Animal Care and Management Training Package.	Implementation/planning comments:
