<b>Project and work-based learning</b>	<p>It is strongly recommended that project and work-based learning opportunities be used as a teaching and learning strategy throughout the course. These could include group project work, individual research or other activities that meet the learning needs of students. There is a range of career, enterprise and work education programs currently operating in schools that may be linked to the Manufacturing (Pathways) course.</p>

### Course requirements

This course will be credentialed as a 100-hour elective on the School Certificate.

Students must attempt:

- all compulsory units of competency
- and one technical unit of competency (compulsory) from a specialisation area
- plus elective units of competency to a minimum of 45 SC indicative hours (to obtain Certificate I in Manufacturing (Pathways) (MSA10107) students must achieve five elective units of competency).

Students will study this course with a focus on one specialisation. The four areas for specialisation are:

- timber
- cloth
- plastic
- metal.

To count a course towards the School Certificate program of study students must satisfy the course completion criteria as required by the Board of Studies. Refer to Section 4.3 of the *Assessment, Certification and Examination (ACE) Manual*.

### Access to VET by students in Stage 5

Undertaking a VET course in Stage 5 is an option for students as part of a broad general education leading to recognised schooling and VET sector qualifications. Students must also complete the mandatory requirements of the School Certificate, including the development of essential literacy and numeracy skills.

Further information, including *Guidelines for Access to Vocational Education and Training (VET) Courses in Stage 5 in 2010* is available on the Board of Studies website at [www.boardofstudies.nsw.edu.au/voc\\_ed/stage-5.html](http://www.boardofstudies.nsw.edu.au/voc_ed/stage-5.html)
