Part (A)

2012 HSC - Aboriginal Studies

Band 1/2

Sample 1 Question 16(a)

In the Criminal justice system Indigenous people are over represented because of what happened to them. The believe that they should also get a fair go not just the non-Indigenous people in Australia. or around the world.

The Indigenous people <sup>should</sup> have the right to do what they want because they are humans as well and the non-Indigenous people think they own everything because they out number the indigenous population when they went and destroyed everything they had and owned.

The Indigenous people believe they need a fair go at life and so they should because they need to teach their kids and need them to be in school for education for all of the new generations coming through.

The Indigenous people where also over-represented because the elders believe that they could help to stop so much justice going against the Aboriginal people in the community.

They elders wanted them to have a fair go and have things fall their way for once not just everything going the opposite way into the non-Indigenous favour so they could lock up the Aboriginals and Indigenous population.
