2012 HSC - Aboriginal Studies

Band 2/3

Sample 1 Question 14(a)

Question 14 - housing

(a)

The socioeconomic factors affect Indigenous housing because of the low education and employment levels. Indigenous Australian's live in over populated houses mostly with three generations all living under one roof. This is due to the low employment meaning no money to support a house. And low Education to know what to do to support a house and job.
