

Start here.

The current health status for ~~the~~ indigenous people is significantly lower than that of ~~a~~ non-Indigenous descent. This is because of colonisation and Aboriginal people were forced to be ~~amune~~ ~~amune~~ amune to these diseases fast. but unfortunately the amunity <sup>systems</sup> of Aboriginal people is weak ~~to~~ compared to non-Indigenous that have had ~~thousands~~ thousands of years to become amune to these diseases. Aboriginal people have a life expectancy ~~of~~ 17 years lower than non-Indigenous people. This is due to poor housing, Employment, no access to clean water and ~~to~~ <sup>good</sup> education. ~~to complete~~ Over time this has improve and life expectancy is gradually ~~big~~ getting higher through programs like close the gap. But there is still work to be done.
