Section II

2012 HSC - Aboriginal Studies
Band 3/4
Sample 1 Question 19(b)

Question 19

(b)

The student who is researching and using the experiences and perspectives of Aboriginal people for a case study must use ethical practices such as consultation protocols which include asking the Aboriginal person to sign a statement referring to the information given by them was actually acquired by the student from the Aboriginal person. is true.

The student must also ~~research~~ respect the Indigenous knowledge, such as dreamtime stories, also acknowledging where the information was gathered from.
