2012 HSC - Aboriginal Studies

Band 4/5

Sample 1 Question 19(a)

a) Some Aboriginal people may be unwilling to participate as it affects their social structure and values. For example, if a woman was wanting to know about the male business, the Indigenous person would not be capable of doing so if they were a male. They may also feel uncomfortable and self-conscious ~~of~~ their ~~ways of living and may not~~ about talking about their culture and tradition to a complete stranger. It may also be difficult as it may affect them on a deeper personal level ~~and~~ which they don't want to share.
