2012 HSC - Aboriginal Studies

Band 4/5

Sample 3 Question 19(a)

Some Indigenous people may not be willing to participate in a community consultation because they might not feel comfortable sharing information, it might be sacred knowledge, they might also just not want to share it with non-Indigenous people, and they have every right to say no.

Indigenous people do not always like sharing their information as it could be sacred, private knowledge which is not allowed to be given out.
