

In the right hand side the picture of a window inside a ship giving a view of a bottle that has a letter inside, with a rope around it as if some one was ~~is~~ trying to catch ~~the~~ the bottle. With one small star fish on one side of the bottle and ~~the~~ another abit larger star fish on the other side, there seems to be very small and far away ~~the~~ dark and light blue swimming pass the ships window in a group of 8, while the bottle is sitting half way up in the ~~the~~ sea, the bottle seems as though its been in the ocean/sea for many years as it has gotten ~~a~~ a very greenish colour to the inside white the bottom of the ~~the~~ glass bottle looks very dark green and black.
