

Question 21 (7 marks)

- (a) What is meant by the term *ecologically sustainable food production*?

2

The term is meant by saying that
the food is eco and also
sustainable for production
and the manufacturer.

- (b) Discuss the use of genetically modified crops in food production.

5

The usage of genetic crops
is so that the food
is genetically modified
so that it has a
good sweet taste
and a longer
shelf life
