

Start here.

a) How much more products the company will be producing, how much more ~~wood~~ ~~wood~~ timber will be ~~have~~ harvested.

b) How ~~is~~ much bigger the new ~~is~~ complex is to the old one. Will there be enough powerpoints to support all the equipment. Where ~~is~~ is all the tools and equipment going to go ~~is~~ inside the complex. Is the all the wiring in good condition and if an electrician needs to be called ~~for~~ for an inspection. Will more employees need to be hired and how many? How much will this raise the fee's.

How will the new employee's ~~bee~~ be trained, All ~~the~~ has to be re-done for all employee's.

OHS

A new fire escape must be conducted in the new building. The new income has to be compared to the fee's to see if profit is made.
