

## RESEARCH

For the design I have used earlier projects I have made throughout last year. I have also looked at my computer desk at home for shelving ideas. I have also looked through various furniture magazines like “IKEA” and “FREEDOM” at computer tables and desks. I already have a table at home but it is not adequate for studying. I have used some of the measurements and designs from this old table and will incorporate them into this new table.

# Research

The Following Research was conducted

- I have researched computer desks on the internet
- I also visited a couple of office suppliers e.g.: officeworks and Freedom Furniture
- I also did some research on the materials I was to use I asked questions at some timber suppliers such as Thrifty link and hardware house
- Pictures of computer desks can be found at
