

Use of Appropriate Industrial Processes & Equipment

Industrial equipment used to manufacture my Black Jack Table:

- The use of the jig saw.
- The portable router.
- The orbital sander.

Industrial processes and equipment used to manufacture my Black Jack table.

- Use of Circular saw
- Docking saw (Compound mitre saw)
- Spindle sander.
- Use of the orbital sander instead of sanding the sanding machine.
- Dust mask when using spindle sander and working with MDF.
- Earmuffs over see photos using docking saw, jigsaw and portable router.
- The processes of applying the felt to the insert by using a staple gun.
- A professional carpenter applied Laminex on the table.
