

HSC 2002 – Industrial Technology

Evidence of Safe Working Practices and OH&S Issues

Band 4/5

Demonstrates the use of some safe working practices through photographic and written evidence.

O.H.S

Occupational health and safety is an important aspect of the making of the bench chair in the workshop. The safety of me and fellow workers is important and so certain applications have to be issued, as shown in the pictures below the person is implementing the correct procedure by wearing the correct safety goggles, apron and earmuffs while using the equipment. Note that the proper safety distance for your hands and other persons around you from machines is also important.
