

HSC 2002 – Industrial Technology

Evaluation of the Major Project and its Relationship to the Statement of Intent

Band 1/2

Minimal evidence of references to the statement of intent.

Overall I was happy and proud of my project. I almost met the intended design I was going to do. If I had more time I would of probably made some inner sections inside the box, this would of presented well probably gave me more marks but I didn't manage my time well enough to do so.
